## TOP 10 THINGS TO DO

### #1 Gull Lake (free)

#### **Sandy Beaches · Boat Launches · Day Use Areas**

Lacombe County is home to Alberta's first provincial park. Aspen Beach Provincial Park was founded in 1932. Today, discover the sandy beaches that first made Gull Lake a popular vacation spot. Aspen Beach Day Use Area has everything you need with a concession, boat launch, change rooms, play area, fire pits and a scenic boardwalk. Sandy Point, Gull Lake's newest public beach also has a boat launch, change rooms, picnic tables, and a play area. The Lake is a popular boating and year-round fishing destination. Campgrounds, boat launches, public beaches and day-use areas are located around the lake. Stop by the Summer Village for a pancake breakfast on May 19, June 30, August 5, and September 1.

### #2 Kraay Family Farm (\$)

#### **Find Your Way in the Maze**

The farm's corn maze is 15 acres in size and features a new design every year. It takes about an hour and a half to run the full corn maze – but if you have little ones, or need an ice cream break, there are a couple of exits at the beginning of each phase. Visit the petting zoo to meet goats, pigs, ducks, bunnies, chickens, sheep and a donkey. Root for your favourite little curly-tail during the farm's piggy races – twice a day in the summer. Aim and fire the corn blaster or the pumpkin cannon in the fall. All that playing is going to give you a good appetite, so luckily the farm sells ice cream, kettle popcorn, hot dogs, deep-fried pickles, mini-donuts, cotton candy and fresh roasted nuts. Or you can bring a picnic, cook out over a fire pit or rent a BBQ. Open: July 19 – October 19 For Summer and Fall Hours and current admission prices visit [kraayfamilyfarm.com](http://kraayfamilyfarm.com)

### #3 Ellis Bird Farm (free)

#### **Birds, Ponds & Butterflies. Oh My!**

Ellis Bird Farm has a great nature centre and hundreds of bird houses to see. Come out for an activity and build a birdhouse too! This is a great location to visit with both large and small groups. The Ellis Café is the perfect place to relax and enjoy a delicious lunch or afternoon tea. Food in the Ellis Café is made with fresh and locally sourced ingredients.

## #4 Blacksmith Shop, Murals & Museums (free)

### Discover the Heritage

Home to communities established by pioneers, homesteaders and farmers, the history of the Lacombe Region is intricately tied to its rural roots and agricultural heritage. In 1902, Lacombe was the first town established in the area and within the next twenty years the communities of Blackfalds, Alix, Clive, Mirror, Gull Lake, Bentley and Eckville were to follow. Today, you can visit 6 museums in the region including the Alix Wagon Wheel Museum, Bentley Museum, Mirror Museum, Wadey House (Blackfalds), the Michener House Museum, and the Lacombe Blacksmith Shop - the oldest blacksmith shop in Alberta!

## #5 Up For Some Horsing Around (free; \$)

### Track on 2 Horse Racing & Event Centre and the Flying Cross Ranch

The Track on 2 is a world class racetrack that offers live and international streaming horse races as well as VLTs. Admission and Parking are always free, and the atmosphere is family-friendly! Make sure to try the deep-fried banana split! For more info: 403.789.8244 [thetrackon2.com](http://thetrackon2.com).

To experience life on the Ranch and meet the friendly animals that call Flying Cross Ranch home, take in some

of the great events throughout the year. "The Kentucky Derby Party" (May 4th) and "Talk Derby to Me" (August 2nd) dinner theatres, Baby Animal Days (May 25<sup>th</sup> & 26<sup>th</sup>), and Open Farm Days are just some of the fun scheduled for this year.

## CULTURE & HERITAGE

### HISTORIC DOWNTOWNS

Discover the museums, murals, and charming historic downtowns of our communities.

The Lacombe region is centrally located at the crossroads of two historic trails - one connecting the eastern Buffalo Lake region to the western Rocky Mountain House area, and the other connecting southern Montana to the northern Edmonton area.

The region is part of the North American Great Plains, situated within the Treaty 6 boundaries that extend across the central portions of Alberta and Saskatchewan. The area is home to the Cree people.

Edward Barnett and Elvie (née Green) Barnett

In 1880, the first survey team came to Lacombe and reported that the region had excellent soil with much open prairie broken by patches of willow and poplar. The first documented resident of Lacombe was Edward Barnett, a former North-West Mounted Police officer, who built a cabin and a barn along the Calgary – Edmonton (C&E) Trail in 1883.

Crowfoot, Father Lacombe and Three Bulls

By 1893 the future village of Lacombe had a population of twenty-five and the lots and blocks of the downtown area were surveyed. Three years later, the settlement was granted village status. The community was named by CPR officials after Father Albert Lacombe, a French-Canadian Roman Catholic priest and an Oblate of Mary Immaculate.

In 1891 a railway was constructed from Calgary to Edmonton with a station building every 18 miles along the line, including one in Lacombe. The new railway gave the fledgling farming community a significant boost.

1900

Two rival newspapers are established and the Lacombe Police Service is founded

1891  
The arrival of the train enabled settlers to move to the area

By 1907, Lacombe had a population of 1,100 people. The communities of Blackfalds (1904), Bentley (1906), Alix (1907), Clive (1912), Mirror (1912), Summer Village of Gull Lake (1913),

and Eckville (1921) were all established shortly after the arrival of the railway. Additional rail lines were subsequently built going east through Alix (1904), and west to Gull Lake and Bentley (1917).

By 1930, Highway 12 was graveled and motor vehicles had become a common method of transportation in the region. This made it even easier for locals to go to the beach and enjoy the great outdoors at Gull Lake.

**Irene Parlby**, a well-known member of the Famous 5 is from Alix! A lifelong advocate for rural Canadian

women and children, Parlby became the first president of the United Farm Women of Alberta from 1916 to 1919. In 1921, she was elected to the legislative assembly, becoming the second woman in Canada to hold a provincial cabinet post. Parlby represented the Lacombe constituency for 14 years from 1921-1935. ### Alix Wagon Wheel Museum

When Joseph and Cynthia Todd left the U.S. in a Wagon Train in 1899, they little knew that stories of gold being panned in Tail Creek, where a Metis "hivernant" settlement was established, would lead them to homestead in the area of today's Village of Alix. You can see pictures of the white bullock they drove and the hub of their wagon wheel, along with their story and photos at the Alix Wagon Wheel Museum. The artifacts of several early settlers' families, including those of Walter and Irene Parlbay, and of C.C. McDermard are on display along with a collection of taxidermy birds, tools, sport team memorabilia, a service room, pioneer kitchen, paintings from local artists and some First Nation artifacts.

## This year celebrate the Morrison House Café's 100th Anniversary

Built in 1919 for W. Norman and Bertha Morrison, the Morrison residence is (today) in near original condition. The house is beautifully maintained and is a key historic resource in the City of Lacombe.

This historic landmark is distinguishable by its symmetrical massing, high-pitched gambrel roof, prominent central eyebrow dormer, and central enclosed front entrance with balcony above.

In partnership with James Johnston, Morrison operated the community's first general store and subsequently opened M & J Hardware in 1906 located in Lacombe's commercial center on 50th Avenue downtown. Mr. Morrison was also active in political circles, serving as mayor of Lacombe between 1917 and 1920, and was a founding member of the Board of Trade.

Chuck and Cindy Bourn are the current residents, and they opened the Morrison House Cafe on the first floor in March of 2013. Stop by the café for lunch or tea and enjoy the home-cooked meals and pastries and learn more about this historic setting. Happy anniversary Morrison House Café!

Tollers' famous coffee, soups and sandwiches have made them a favorite with locals. They also offer a full supper menu. With handmade donuts, craft beer, wine and cozy atmosphere - they are your one stop spot at anytime of the day!

## BIRD WATCHING

Lacombe County provides many excellent bird-watching opportunities. Located in the Aspen Parkland region of the province, dotted with lakes and wetlands, and with pockets of both the prairie and boreal forest habitats, the County supports a rich and diverse variety of avifauna. The Red Deer River Naturalists have developed some excellent birding resources for Central Alberta and are invaluable for anyone wanting to bird in Lacombe County. The three largest lakes in Lacombe County—Buffalo Lake, Sylvan Lake and Gull Lake—all provide excellent birding opportunities. Smaller lakes, such as Alix Lake, Haunted Lakes, Bieglow Reservoir and Lacombe Lake are also good birding sites. The County is also dotted with many small wetlands that can be viewed from the roadside (take the necessary precautions). Lacombe County is also lucky to be bisected by part of the TransCanada Trail. This trail provides an excellent birding trail between Lacombe and Blackfalds. Access details are provided on a map by the Central Alberta Trails Society. Note that the southern section is the most productive for bird watching <http://bit.ly/CentralABTrails>.

## GEOCACHING

A fun outdoor treasure hunting game using GPS-enabled devices. Participants navigate to a specific set of GPS coordinates and then attempt to find the geocache hidden at that location. Once you find the geocache, you sign the logbook and switch an item with a treasure you pick from the geocache. This turns the game into the treasure hunt! Then you log all your findings online, whether you found the geocache or not. There are many geocaches just waiting to be found right here in the Lacombe Region. Over ten Geocaches are located on the Burman University campus alone! Log onto [geocaching.com](http://geocaching.com) and let the fun begin.

## GULL LAKE

Homesteaders first settled the region south and west of Gull Lake in about 1895. The Summer Village of Gull Lake is located on the south shore and is the oldest Summer Village in Alberta. It was incorporated in March 1913. Traditionally, Summer Villages were formed from 'Summer Resort' areas. Their residents were predominately summer residents or "cottagers".

A number of today's cottagers in the Summer Village are descendants of the first owners. There are stories and memories from the early days of the Summer Village about the men and women who built the hotels, who managed the first stores, who provided the ice and the wood, and those who went up and down the back lane to sell milk, butter, vegetables, chickens, and home baking.

## NATURE & RECREATION

# PONDS, LAKES & RIVERS;

## Fishing Spots near Lacombe

Len Thompson Pond is located within the City of Lacombe. It has recently been renovated to include a gazebo, improved parking, handicap access, fishing platforms, play area and toilets. Several hundred Rainbow Trout are stocked every year courtesy of the Lacombe Fish & Game Association, ACA and Thompson-Pallister Bait Co. Ltd. Fishing licenses are necessary for anglers over 16. Catch and Release fishing is encouraged.

Annually on the first Saturday in June, LFGA volunteers host Junior Fishing Day where children are welcomed to learn about the sport. Fish are released, fishing rods are available to borrow, and free hot dogs are provided by the Co-op.

Tees Pond, Mirror Pond, Hansen Pond (Eckville), Mitchell Pond (Heritage Ranch) and Ray's Pond (Benalto) are stocked annually with large quantities of Rainbow Trout.

For those anglers with access to a boat, there are several good lakes within an easy drive. Buffalo Lake is a large shallow lake that has very good Pike fishing. Pigeon Lake has large quantities of Walleye, which can only be harvested with a special tag through Alberta RELM.com. Sylvan Lake has some Pike and good numbers of Lake Whitefish and Walleye. Gull Lake is one of Alberta's busier ice fishing spots since it contains good quantities of large Whitefish and Burbot as well as an expanding Perch population. Summer anglers tend to try for the top predators, Pike and Walleye. It is a pleasant summer fishing lake since it is fairly easy to stay away from high speed boat traffic.

Want to hire a charter to spend a day on the lake? Local outfitters are available and geared up to take you and your

companions fishing year-round on Gull Lake. From the summer's open water to a winter overnighter in a luxury ice fishing hut, these are the experiences memories are made of! Great for corporate retreats, family fun, or an unforgettable gift!
